## Remote and Hybrid Work Policy

Owner: Human Resources | Version 3.0 | Effective 1 September 2026

Replaces: Version 2.1 (January 2025) | Approved: 14 August 2026

---

### 1. Purpose

This policy sets out how remote and hybrid working operates at LainEs Labs, so that expectations are clear for employees and managers.

### 2. Scope

It applies to all employees. Roles that require an on-site presence are not affected, and their arrangements are agreed individually with the manager.

### 3. Hybrid schedule

The standard hybrid schedule is three office days a week. Teams agree which days so that cover is sensible and meetings can take place in person. Core collaboration hours continue to apply on remote days.

### 4. Fully remote arrangements

Fully remote arrangements need manager and HR approval and are reviewed every two years.

### 5. Working from another region

Employees may work from another region for up to twenty days in a calendar year with manager approval. Longer periods need HR approval and may have tax or legal implications.

### 6. Equipment allowance

A one-off allowance of 400 dollars is available for home working equipment and can be claimed again after three years. Receipts must be submitted through the HR service portal.

### 7. Exceptions and questions

Requests for exceptions should be submitted through the HR service portal. Questions can be sent to the HR service desk.
